

Modern Cybersecurity with AI Bootcamp

April 2026

Sponsored by CloudSec Network (CSN)

About CSN

CloudSec Network (CSN) is an EdTech and innovation hub empowering Africa's next generation of cloud and cybersecurity professionals.

Hands-On Training

Real-world cloud and cybersecurity skills through bootcamps, labs, and live sessions.

Career Support

Help members transition into cloud & security roles through mentorship & real-world preparation.

Community Growth

Create a thriving community focused on peer support, collaboration, and shared success.

Bootcamp Overview

Live Sessions

Join expert-led, live training sessions streamed on YouTube, focused on building practical cybersecurity skills with AI through real-time instruction, interactive Q&A, hands-on walkthroughs, and guided demos. Session replays are available for participants to revisit key concepts and reinforce their learning.

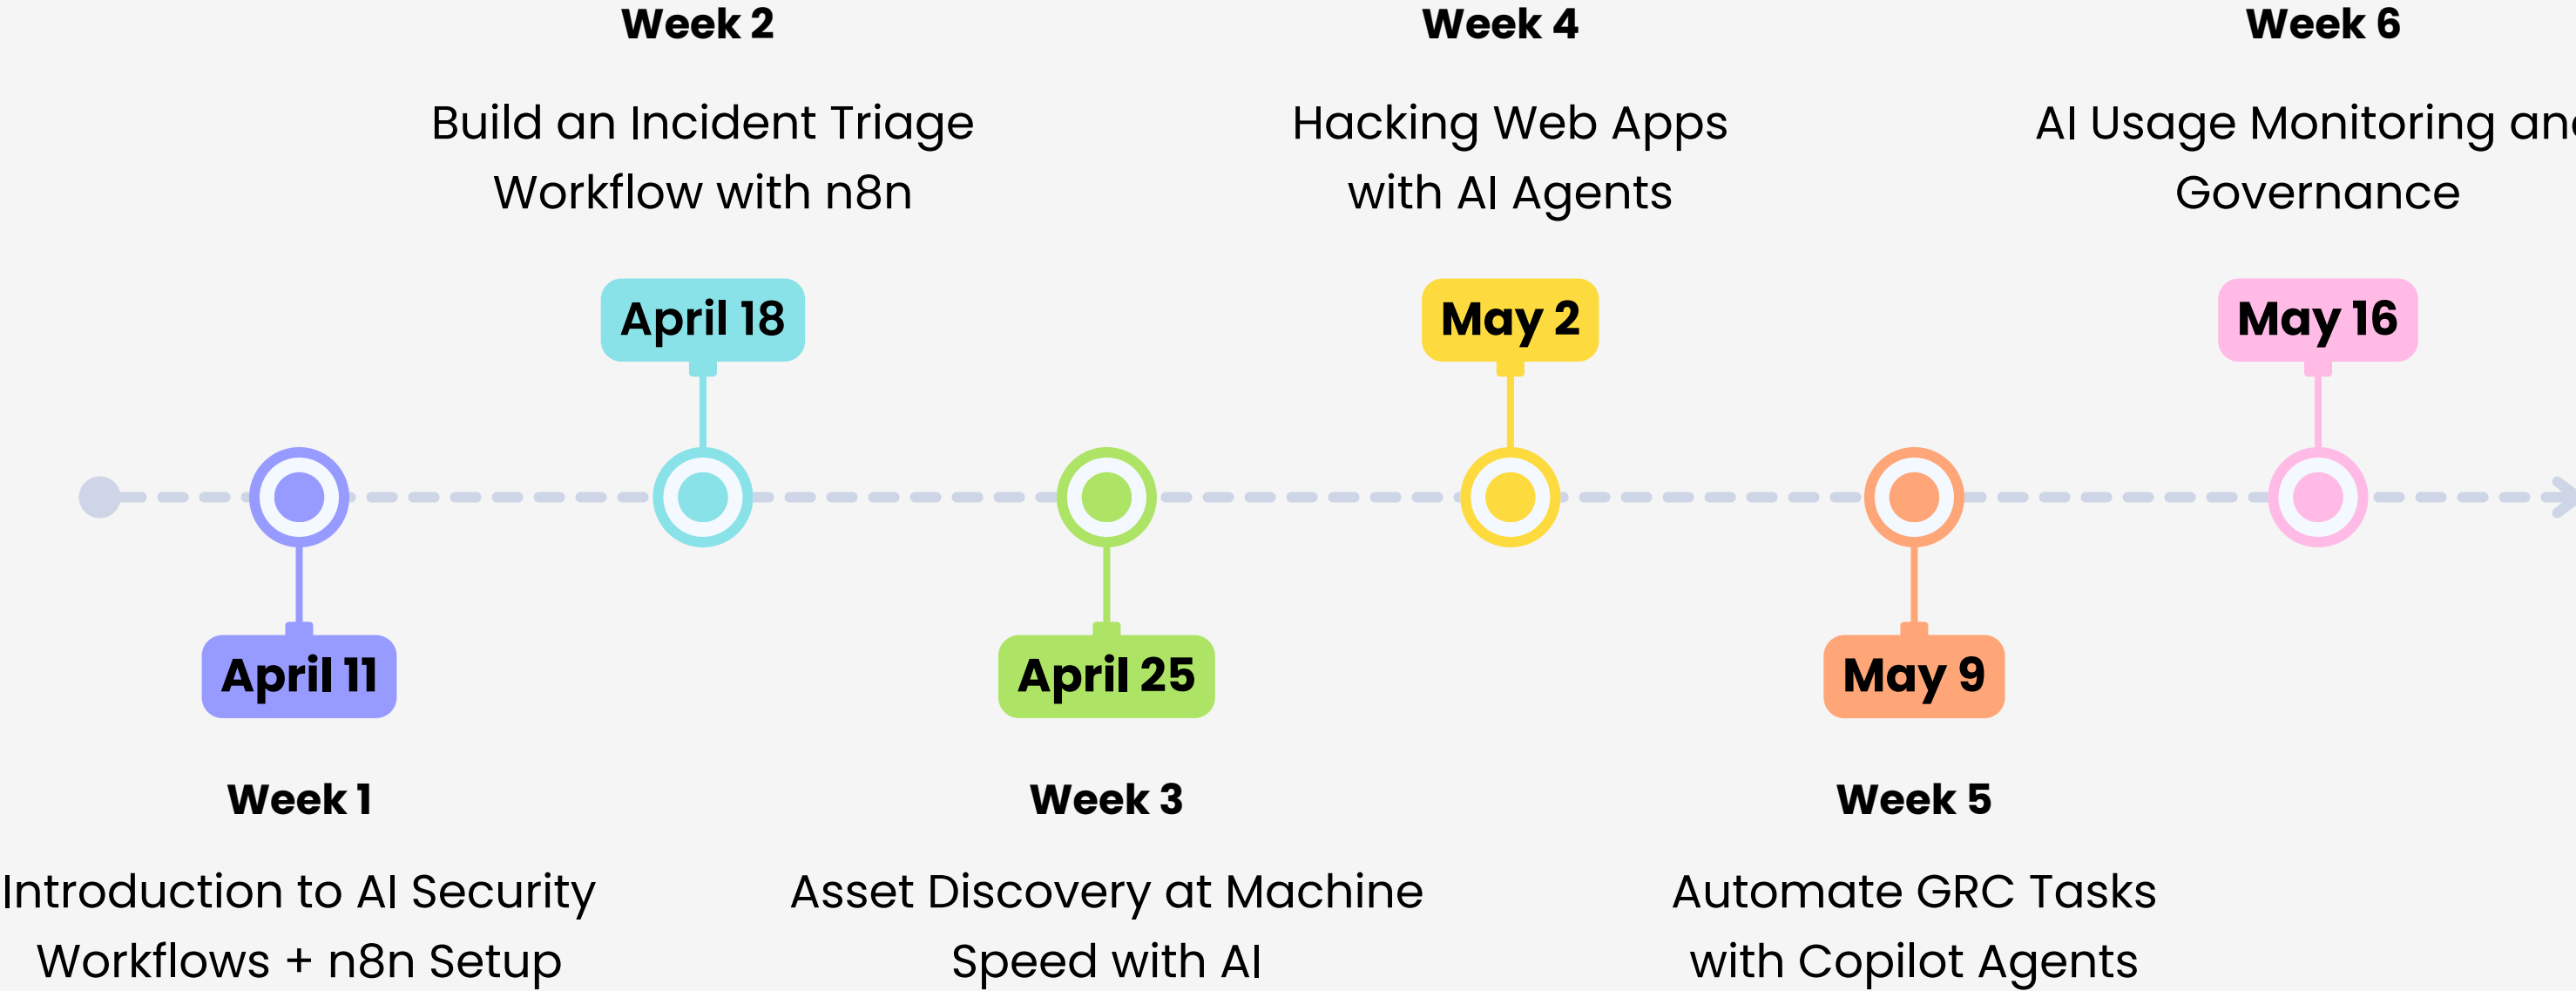

Capstone Projects

Apply your learning through hands-on capstone projects built around realistic cybersecurity scenarios and AI-driven workflows. These projects are designed to help you practice what you learn, deepen your understanding of modern security operations, and produce work that reflects practical, real-world experience.

Recognition

Participants who successfully complete the bootcamp will receive a Certificate of Achievement in recognition of their dedication, learning, and successful completion of the program. It serves as a valuable credential that strengthens your professional profile and showcases your growth.

Curriculum (2026)

Success Factor

What you get from
this Bootcamp
depends on what
you put into it.
